

Cottage Rehabilitation Hospital provides compassionate, patient-centered medical rehabilitation to empower people with disabilities.

Cottage Rehabilitation Hospital is dedicated to providing excellent care for survivors of stroke, brain injury, spinal cord injury, orthopedic injury and other disabling conditions. Patients at CRH receive intensive rehabilitation services, a minimum of three hours of therapy per day, five of seven days a week.

CRH is accredited by the Commission on Accreditation of Rehabilitation Facilities (CARF) in Brain Injury Specialty Programs, Comprehensive Integrated Inpatient Rehabilitation Programs and Stroke Specialty Programs. The Joint Commission accredits CRH as a program of Santa Barbara Cottage Hospital.

## CRH TRANSDISCIPLINARY TEAM

CRH works together as a team to achieve maximum successful outcomes. Mutual support exists among all members of the team, with the patient and caregiver at the center of the team.

This model illustrates how CRH's coordinated care leads to success:

## 2019 REHABILITATION INPATIENT OUTCOMES

|   | GENERAL REHAB<br>(all patients) | STROKE                     | BRAIN INJURY               | SPINAL CORD INJURY         | ADOLESCENT PATIENTS    |
|---|---------------------------------|----------------------------|----------------------------|----------------------------|------------------------|
| Number of Persons Served  | 661                             | 168                        | 129                        | 41                         | 3                      |
| Average Length of Stay (Days)                                       | 13.7                            | 15.9                       | 13.8                       | 21.7                       | 21.3                   |
| Gender  | 44.5% Female<br>55.5% Male      | 48.8% Female<br>51.2% Male | 38.8% Female<br>61.2% Male | 36.6% Female<br>63.4% Male | 67% Female<br>33% Male |
| Average Age   | 69.8                            | 72.5                       | 61.4                       | 62.3                       | 17                     |
| Return to Community Rate  | 91.8%                           | 89.9%                      | 94.6%                      | 85.4%                      | 100%                   |
| Functional Improvement Measure (% increase from admission baseline) | 36%                             | 35%                        | 40%                        | 41%                        | 34%                    |
| Patient Experience  | 98.1%                           | 98.9%                      | 94.2%                      | 100%                       | 100%                   |
| Average Number of Minutes of Treatment per Day                      | 158.2                           | 171.8                      | 163.9                      | 145.8                      | 181.4                  |
| Unplanned Transfers to Acute  | 6.1%                            | 5.9%                       | 4.7%                       | 12.2%                      | 0%                     |
